

CHANG YAO HSIEN (VICTOR)

SENIOR FRONTEND ENGINEER | REACT · TYPESCRIPT · REAL-TIME WEB APPLICATIONS

t790219520@gmail.com ◇ linkedin.com/in/yao-hsien-chang ◇ outsider987.github.io/victor-site/

PROFILE

Senior Frontend Engineer with 7+ years of experience building React/TypeScript and Vue/Nuxt web applications. Focused on real-time operator interfaces, server-state caching, SSR/SEO, and modernizing data-heavy workflows. Backend experience with Go and NestJS connects interface decisions to APIs and production operations.

EXPERIENCE

CypherLab Sdn. Bhd.

Feb 2026 – Aug 2026

Senior Full-Stack Engineer

Real-time sports and e-sports betting back-office platform

Tech Stack: React, TypeScript, TanStack Query, WebSocket, Go

- Built **React and TypeScript** workflows for live sports and e-sports operators, including market closure and odds overrides.
- Used **TanStack Query** to cache HTTP market data, apply matching WebSocket updates, and refetch when markets were added or removed.
- Modularized WebSocket handling by feature and guarded live updates by sequence to prevent older market data from replacing newer values.

Mediconcen

Feb 2022 – Jan 2026

Senior Full-Stack Engineer

Hong Kong-based InsurTech delivering digital health insurance solutions

Tech Stack: TypeScript, React, NestJS, Go, PostgreSQL, Redis, AWS, Docker, Kubernetes

- Modernized a legacy **React** codebase from class components to Hooks, improving maintainability of clinic and insurer workflows.
- Implemented **infinite scrolling and list virtualization** for large, data-heavy views, loading paginated results on demand while rendering only visible rows.
- Built clinic-to-insurer workflows for eligibility checks, copayment calculation, claim submission, and third-party insurer APIs.
- Owned onboarding for new clinic and insurer partners, from requirements and task breakdown through development, release, and production support.
- Worked with Product Managers to turn business workflows and technical constraints into scoped engineering tasks.

Paradromix

Jul 2021 – Feb 2022

Frontend Engineer

Government-grade crypto management systems and enterprise web platforms

Tech Stack: TypeScript, Vue, Nuxt (SSR), AWS, Nginx, Docker

- Led frontend delivery for **Nuxt SSR** platforms and built a custom CMS for non-technical teams, with focus on SEO and maintainable UI architecture.

ULIC TEK

Jan 2018 – Jul 2021

Software Engineer

Image processing systems and industrial desktop-web hybrid solutions

Tech Stack: Vue, TypeScript, Angular, C++, MFC, OpenCV

- Modernized legacy desktop applications with web-based UI layers and built image-processing functionality in **C++/OpenCV**.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, TanStack Query, Next.js, Vue, Nuxt, HTML, CSS

Frontend Engineering: React Hooks, SSR, SEO, WebSocket, REST APIs, Component Architecture

Backend & Data: Go, Node.js, NestJS, PostgreSQL, Redis, NATS JetStream

Cloud & Tools: AWS, Docker, CI/CD, Linux, Nginx, Git

Languages: English, Mandarin

EDUCATION

Bachelor of Chemistry, Chia Nan University of Pharmacy and Science

Graduated 2017
